

### **Roles and Responsibilities of NANSIG International Ambassadors (2024/2025)**

- Support and help maintain the point of contact and lines of communication with all local surgical societies and neuroscience societies.
- Share NANSIG activities on social media and to the members that you have been chosen to represent.
- Participate in and lead the organisation of local NANSIG events, including promotion at University Freshers fairs for University Representatives.
- Support and recruit individuals to help NANSIG produce educational content
- Share educational content produced by individuals locally to NANSIG for national dissemination.
- Participate/recruit individuals for national research projects, and participate in at least one of NANSIG's national and international projects.
- Support the development of our mentoring programme.
- Support the development of a research capacity building programme.
- Support the annual NANSIG essay prize.

In return, we will provide International Ambassadors with opportunities for CV and portfolio enhancement as well as support and guidance in their academic efforts. As such, we would ask that all representatives commit a minimum of 1 hour a week to NANSIG efforts.
